

AUCTION SALE TO-DAY.

P. M. BACKUS will sell at 11 a. m. on the premises, View street, opposite St. Ann's School, all the furniture of a Private Dwelling house, comprising Kitchen, Chamber, and Parlor Furniture, Chairs, &c., also one splendid square Piano.

CITY COUNCIL.

MONDAY EVENING, 31st AUG. 1863. Present.—Councillors Campbell, Strachan, Reid, Lewis, and Hicks.

Mr. Reid, upon motion of Mr. Lewis, took the chair.

ADDRESS TO THE PRINCE OF WALES.

The communication of Lieut. Gen. Knollys (already published) acknowledging the receipt of the address by the Council, congratulating His Royal Highness on the attainment of his majority, was read and placed on file.

THE APPROACH FROM THE PARK.

A communication from the City Surveyor stating that the road way leading from Humboldt to the city, and the approach from the north, with the exception of a deviation at the northern end to avoid a piece of rock.

Mr. Lewis moved that the communication be placed on file.

Mr. Hicks moved that the City Surveyor be required to attend with map and explain his report.

Mr. Campbell seconded, and was of opinion that the attendance of the City Surveyor was necessary, as the Council knew nothing of the map referred to. It was another way of shunting over these matters, and the Surveyor ought to have attended when he sent in a report of this nature, which he looked upon as a very strange one.

Mr. Lewis also considered that the City Surveyor should be present.

Mr. Lewis objected to the amendment; it was tantamount to a vote of want of confidence, and if the City Inspector's report could be relied on he was not competent to fill the office. He could state from personal knowledge that Mr. Green was indisposed.

Mr. Campbell replied that no vote of censure was intended or would be implied.

Mr. Seabury expressed his own satisfaction with the report as it stood.

The amendment having been put was lost, and the original motion was carried.

It was then agreed upon the motion of Mr. Strachan that Messrs. Campbell and Hicks appoint a committee to wait upon the City Surveyor and ascertain from what map he obtained the information upon which his report was based.

REPORT OF CITY INSPECTOR ON NUISANCES.

The following report of the City Inspector was brought up:

TOWN HALL, VICTORIA, V. I., August 28th, 1863.

To the Worshipful the Mayor and Town Council.

GENTLEMEN:—I beg to submit for your consideration the following report, viz:

1st. As great nuisances exist throughout the city from want of proper drainage, and as the present surface drains are made of very rough material and at various grades, which causes the water to remain stagnant—and on my giving notice to the parties who have present nuisances to remedy the same, they have stated in reply, "show us how we can remedy the nuisance and we are willing to do so."—I would therefore humbly suggest to your honorable body the following plan to the end: To construct wooden box drains 10 inches square in the city, sunk into the ground and laid with a proper fall, by means of which the drainage might be effected.

2d. I have also to report to the dangerous state of the water tank in Store street, corner of John street, in which the water has been so high, the earth proper falling in, and also the top covering is nearly worn through thereby causing great danger.

I would also bring your notice the necessity of repairing Wharf and Store streets, as they are in a very bad state, in consequence of large boulders sticking up.

Awaiting your instructions in reference thereto,

I have the honor, &c., (Signed) JOHN C. CLARKE, City Inspector.

Mr. Campbell said that since referring to have this report, he had himself intended to bring forward some of the matters referred to, and had told the City Inspector that he would do so. He then adverted to some of the nuisances complained of, which he thought required attention, and would introduce a motion on the subject.

Mr. Seabury read a communication which he had received from the City Surveyor giving an estimate of a temporary drainage drain of 10 inches square in the city, sunk into the ground and laid with a proper fall, by means of which the drainage might be effected.

Mr. Lewis was glad Mr. Seabury had deferred his motion, as he had proposed under of drainage was open to serious objections. He was of opinion that the 10 x 10 sewer would never answer, it should certainly be not less than 20 x 2, and it should also thought that Proprietors of Restaurants and other neighbors would willingly contribute towards the expense of a proper drain. The city should only by right pay for the crossings of streets and gratings.

Mr. Campbell said he would not bring forward his motion, as it had occurred to him that it should be a matter for the consideration of the Legislature.

It was then agreed that the report should be placed on the file, and the matter should lay over for discussion.

NEW GRADE OF BASTION STREET.

A communication was received from property-holders on Bastion street, complaining of the injuries which the present grade of that street caused to their property and premises during the wet season, and praying that it be altered.

A long discussion ensued, when it was agreed upon motion of Mr. Lewis, that the City Surveyor be instructed to report upon the probable cost of the required alteration of the grade.

MISCELLANEOUS.

Leave was given Mr. Patrick to erect temporary stairs to his cellar, and also to remove his wooden store across the street.

Leave was given to Mr. Mitchell and McLean to remove stable walk on lot 229 on Cornwall street.

Leave was also given to Mr. Verdylen to remove portion of side-walk, for the purpose of forming the grade on Douglas street.

FINANCE.

The report of the Finance Committee recommending the payment of the following amounts, was read:—Messenger, \$15; Fire Department, \$250; Aaron Neely, Douglas street, \$600; Hicks and Davidson, Cornwal street, \$480 50; Williams, crossing Broad and Yates street, \$25; Hicks and Davidson, Wharf street, \$250 25; Total, \$2,092 25.

Messenger, \$14 62; Thos. Troncut, quarter rent, \$300; Town Clerk, quarter salary, \$341 25; Total, \$695 87.

Agreed that the report be received and the amounts paid.

BOUNDARY LINES.

Further time was granted to the Committee on boundary lines of Government and Broad streets to bring up their report.

STORE STREET.

Leave was given Mr. Campbell to withdraw his motion with respect to the state of Store street. Upon this subject, the Council was a member, had inspected the state of the road, and would take steps to have the large stones broken up and the road otherwise repaired.

CITY FOUNDED BY LAW.

Mr. Campbell's By-law for the regulation of the city and then came up and the clauses having been consideration serious and undergone certain amendments, the By-law passed the second and third reading.

ADULTERATION OF FOOD AND DRINK.

Mr. Campbell's Ordinance providing against the adulteration of eatables and drinkables, passed the first reading.

STREET LIGHTS.

The following report of the Committee appointed to ascertain the expense of lighting the streets with gas was read.

"That they have received proposals from both landowners in the City for lamp posts and that such offers were at higher rates than the Gas Company propose to charge in their offer which is as follows:

The Gas Company offer to furnish and put up any number of lamp posts (not less than 25), at such points as the Council may direct, at the rate of \$35 per annum for each lamp, and \$10 for putting up and connecting the same with their mains.

The company will furnish a man to light and extinguish the lamps at \$40 per month.

The company will furnish gas at \$1.50 per 1000 feet, at \$5 per month for each lamp; which latter plan, in the opinion of your committee, should be adopted, as it would doubtless save much trouble."

Your committee would further recommend that a contract be entered into with the Victoria Gas Company for the erection of 25 lamp posts at such points as they have marked on the map of the city herewith submitted:

The cost of lighting the City as herein proposed will nearly equal the cost of the following:

25 lamp posts.....\$1500

Cost of Gas for one year at \$8 per month for each lamp.....2400

Lighting of the City for one year.....480

Extra repairs, &c., say.....120

Total cost for one year.....\$4320

Your Committee would further suggest that a committee be appointed to attend to the execution of the contract herein proposed.

As the President of the Gas Co. has intimated to your committee that they will keep the lamp posts, and will only charge the actual cost of erecting the same, and will at the same time guarantee that it shall not exceed \$17.50 for each lamp.

(Signed) W. E. STRACHAN, Chairman.

R. LEWIS, JAS. M. REID.

Mr. Campbell offered some objections to the points selected for the lamp posts.

Mr. Lewis took exception to Mr. Campbell's remarks. The committee had taken great trouble in presenting their report, and he thought it deserved a better reception.

Mr. Campbell hereupon withdrew, and Mr. Hicks having before left the room it was agreed that the report be received, and the appointment of a committee be deferred until next meeting.

SUNDAY IMPROVEMENTS.

Mr. Lewis moved, "That the Committee on street repairs be empowered to erect strong posts and railings at the approaches of the Rock Bay and Victoria Harbor Bridges, and to the side-walks crossing bridges at various points in the city, considered dangerous, also to have the top of the fire-escapes at the junction of Yates and Douglas streets cut off and fixed to the established grade (carried)."

GRAVING VIEW AND LANGLEY STREETS.

Agreed, upon motion of Mr. Lewis, that tenders be advertised for the grading and macadamizing of Langley street from Douglas street to the Victoria Harbor Bridge, and from Douglas street to the Victoria Harbor Bridge.

Agreed, upon motion of Mr. Strachan, that the City Surveyor be instructed to furnish plans and specifications for grading and macadamizing View street from Douglas to Broad street.

Council adjourned to Monday next, at 7.30 p.m.

THE FAMILY JARS.—The case of Alex. Ross again came up before Mr. Pemberton yesterday.

Mr. Lucius O'Brien, and Mr. Ring, instructed by Mr. Peakes, for the step son Ross. The prosecutor was examined, and subjected to a cross examination by Mr. Ring. A series of petty family differences were revealed, and it was shown that Ross had threatened his stepfather with an open knife. The proceedings were, however, terminated by Mr. Ring offering to make his client enter into his own recognizance to keep the peace, which was accepted by Mr. Pemberton, and Mr. Pemberton ordered Ross to be bound over to the sum of £10 to keep the peace for three months. It was intimated that the question as to the legality of the prosecutor's marriage with Mrs. Ross, and his consequent conduct over her property, would be the subject of future proceedings in a higher court.

BLACK-EYED SUSAN.—A Soughish Squaw, who from the damaged appearance of her countenance, must have had an encounter with some skillful member of the P. R., was charged in the Police court yesterday with stealing sundry articles of clothing from one William Brown. The prisoner did not deny the charge, but said she was so drunk that she was not aware of what she was doing. The prosecutor was not desirous of pressing the case, and Mr. Pemberton remarked that the Soughish tribe were not addicted to theft, he would, therefore, order her to enter into her own recognizance to be of good behaviour for three months, or to suffer 14 days imprisonment.

QUARTZ.—A firm in town has kindly shown us some beautiful specimens of gold and silver-bearing quartz taken from the lode, discovered by Mr. McLaughlin, about two miles from Williams Creek. They appear to be exceedingly rich, and when properly assayed will, no doubt, give a most gratifying result.

MISSISSIPPI. Braverman & Lewis, Tobaccoists and Fruitcrs, moved yesterday to one of the new lofty and commodious fire-proof brick stores erected on their old stand on Yates street. The adjoining site will be occupied by Messrs. Gilmore, tailors.

FOR THE SOUND.—The sloops Loonede, Mystery, and Northern Light left yesterday with passengers for ports on the Sound.

FOR PORT SAN JUAN.—The sloop Kingfisher left yesterday for this port to trade for fish oil.

The steamer Caladonia left last night with passengers and freight for New Westminster.

The House of Assembly will meet to-morrow.

FROM COWICHAN.—The sloop Louis, King, arrived on Sunday night from Cowichan.

Letter from Mr. John Morris.

GRIZZLY CREEK, WILLIAMS CREEK, August 19th, 1863.

EDITOR BRITISH COLONIST:—Sir:—Since the date of my last letter to you the following strikes have been made upon this Creek: The Evans, adjoining the Burns; the Star, at the junction of the Moffat; the Grizzly, the Prince of Wales, below the Cameron; and the Marysville, the Columbian, the Pheasant, and one or two others in that locality, have been reported to have got down to the creek, and got good prospects—a few days more of trial may be required to establish the fact as regards their success.

All the claims hitherto reported, some 17 in number, below the cañon, are doing well, and averaging a fair yield, probably some 50 to 70 ounces to the claim.

The Diller, Canadian, Bald Head, and McLean are stated to be nearly worked out.

A few claims above the town are doing well, the Wilson particularly, making handsome yields of gold.

The claims from Richfield to the Cañon are yielding good returns.

Three claims only on Lightning are doing any good yet.

Two claims on Last Chances are paying well. The Grizzly yielded forty ounces daily, and the Columbian about \$50 daily to the man.

On Williams Creek prospecting for several miles below Cameron Town goes on vigorously, and the little needs are so many and so straggled, that it is difficult to say many strikes will be made in that district before the fall.

Several prospecting parties have returned to this creek (who have been unsuccessful) in the hope to get employment and raise a stake to enable them to leave the mines.

A Nation's Struggle for Life.
